

Fishing Minutes – April 13, 2026

I have been involved at the last 3 Stakeholder meetings in Grand County as well as Summit County.

They have established a Lower Blue River working group that consists of

BVA1 Josh Hensley BVA2 Kade Sessions, BLM, CPW, BOR, NFS, Summit County Commissioner, Grand County Commissioner, Brian Rose and Rob Firth from the Ranch, Friends of the Lower Blue, Trout Unlimited and a couple of other small groups.

The Ranch was trying to initiate a permit/voucher system to float and fish the river. We have currently put a stop to that and it is off the table.

BLM will be posting signage at the put in right above the put in stating that no boat launching is allowed. Walking traffic only! Huge win! This will help protect our water gallery.

The river flows will be very low this year and we will most likely not be able to float the blue this year.
